MY FAMILY

My father Johann

My mother Elizabeth

Oldest siblings

I belonged to the baroque period.
What kind of music do you like?
Write it here:

I was one of the **best organists** of all time.

My family had a great musical tradition and had given a great staff of composers for over 200 years.

...speaking about the **Bach family** was a synonym of musical art...

Which characteristics describe your family?

9 YEARS OLD

My parents went to heaven and my older brother **Johann Christoph** was left in charge of me.

He taught me how to play the organ and the harpsichord.

I spent over 6 months transcribing songs that my brother kept in a drawer.

Not only did I play instruments, I also built them and tuned them.

I was the master of improvisation. I could develop any theme however I wanted.

Have you already heard them?

 Some of my best songs are Prelude in C Major WTC 1 and Variation No. 1.

 My music is full of counterpoint and harmony.

 I wrote about 215 cantatas, pieces for solo artist, choirs and orchestras.

I contributed to the keyboard's evolution, including for the first time in fingering, the use of thumbs.
