I was ordained
priest for
a year.

47
YEARS OLD

I published my first collection
in Amsterdam. Twelve concerts that were
initiated with all four concerts
accompanying a violin solo
entitled: The four Seasons,
the best from the collection
and the most famous of my work,
where you can find Spring
and Autumn.

Listen to them and tell methat you think.

I renewed the traditional form of concerto,
and made up the solo concerto for violin.

BACH

Re-awaken my music transcribing
12 of my concertos
to differents instruments.

My style was marked by Venetian esthetics and brought about a revolution
in the formal style towards something more emotional..
